Targus Car Charger for Apple Devices

PRODUCT CODE: APD04EU

Product Description:

Ever feel as if you spend half your life in the car? Maximize your time with the Targus Mobile Charger for iPad, a DC car charger, which charges your iPad, iPhone or iPod via your car 12V outlet. Small and compact, this charger takes up very little space and comes in handy when you have forgotten to charge your iPad/iPhone/iPod at home. You can even charge other USB-charged devices with the appropriate cable (sold separately). Don't you wish you can be this efficient with everything else in life?

Our research shows that 35% of people use iPad in their car, and in general 49% use it outside their home. There is a need for a car charger for those that don't want to run out of power.

Targus brings a compact and inexpensive car charger that ensures you don't need to worry about running out of power just when you need it. Quickly charges you Apple iPad, iPod and iPhone in your car.

Product Features:

- Functionality - DC auto adapter to charge iPad, iPhone and iPod; includes an USB to iPad 30-pin charge/sync cable.
- RoHS Compliant - Yes
- Construction - Small, lightweight and convenient
