Targus Versavu™ 360° Rotating Stand & Case for iPad® 2

PRODUCT CODE: THZ045EU

Product Description:

The Targus 360° Rotating Stand/Case is specifically designed for the iPad 2. The sophisticated styling of the Rotating Stand/Case features a unique, patent-pending mechanism that creatively frames the Apple logo and allows the iPad to rotate both vertically and horizontally while in the case. For optimum comfort, this case offers three viewing positions including a lower angle which is ideal for typing on the screen. The form-fitted design securely holds the iPad in place while the hard-sided exterior provides a sturdy, protective cover. The soft interior lining adds color and protects the device against scratches. The thin design makes it easy to carry inside of another case adding little weight or thickness to the iPad itself. The 360° Rotating Stand/Case for iPad® 2 provides full access to all iPad functions so the iPad can be fully operational without leaving the case. Pairing an executive appearance with seamless functionality, the 360° Rotating Stand/Case for iPad® 2 provides an attractive and functional way to carry and use the iPad.

Product Features:

- Unique rotating device that allows the iPad to rotate in the case
- 3 viewing positions
- Super soft “suede” effect interior that protects your iPad from scratches
- High quality faux leather
- Black exterior with contrasting blue interior
